ronadpro@gmail.com • [LinkedIn](#) • [Portfolio](#)

Full-stack web developer with 8+ years of experience building websites from scratch — from the first wireframe to a fully live, production-ready product. Beyond writing code, I manage hosting and server configuration, run website security reviews and penetration tests, and handle SEO and analytics-driven optimization so sites don't just launch well, they keep performing. I also build custom functionality and 3rd-party integrations, develop e-commerce websites, and provide ongoing support, full audits, maintenance and patching. Every engagement is scoped around what the client actually needs — I deliver according to your specification, not a one-size-fits-all template.

EXPERIENCE

JUNE 2023 - PRESENT

FULL-TIME FULLSTACK DEVELOPER, FREELANCER AU BASED COMPANY

Develop and maintain **WordPress websites, other CMS platforms, and web applications** from concept to deployment, delivering custom builds, bespoke functionality, API integrations, payment gateways, eCommerce solutions, and other business-specific features. **Manage hosting environments and web servers** across multiple platforms, ensuring performance, reliability, uptime, and security through proactive monitoring, maintenance, troubleshooting, and optimization. **Conduct vulnerability testing, penetration testing, and security hardening** to protect websites, applications, and data from potential threats. **Optimize websites** using SEO best practices and analytics to improve search visibility, user experience, and conversions.

MARCH 2019 - MAY 2023

SENIOR WEB DEVELOPER, DELONIX MARKETING CORPORATION

Developed **WordPress websites, plugins, themes, and WooCommerce solutions** for diverse client projects. **Managed hosting environments**, website maintenance, backups, troubleshooting, and third-party integrations while implementing **SEO improvements and performance optimization**. Worked closely with development teams to maintain coding standards and mentor junior developers.

MAY 2017 - JANUARY 2019

SENIOR WEB DEVELOPER, TITAN DIGITAL PTY LTD

Implemented **WordPress websites from mockups into fully functional, production-ready solutions**, following industry best practices, coding standards, and quality assurance processes. Developed custom functionality, integrated third-party services, performed ongoing maintenance and updates, and resolved technical issues to ensure reliable, high-performing websites that consistently met quality control requirements.

JANUARY 2016 – APRIL 2017

JUNIOR WEB DEVELOPER, ODUSEE PHILIPPINES, INC.

Implemented **WordPress websites from mockups into fully functional, production-ready solutions**, following industry best practices, coding standards, and quality assurance processes.

MAY 2015 – NOVEMBER 2015

WEB DEVELOPER, TIME RIVER DESIGN INC.

Developed websites from design specifications and provided front-end implementation, troubleshooting, and website enhancements.

NOVEMBER 2014 – FEBRUARY 2015

WEB DEVELOPER, DESIRED RANKING SOLUTION INC

Produced SEO-focused website content, performed front-end styling, and supported website optimization initiatives to improve search engine visibility.
